

## SPANISH PREMIER DECLARES MARTIAL LAW; MADRID QUIET

Military Directory To Be  
Disbanded After Work  
Is Accomplished.

CAVALRY PATROLS  
MADRID STREETS

Spain Will Be Divided Into  
Political And Military  
Districts.

Madrid, Sept. 15.—Gen. Estella, who has been appointed premier by the military directory, today declared martial law throughout Spain.

Gen. Rivera, head of the military directory and former commander of the Barcelona garrison, has come to Madrid. His provisional government is now in power, headed by army officers. Gen. Rivera will act as president of the directory, assisted by Gen. Cavallanti, Gen. Laban, Gen. Farro and Gen. Berenguer.

It is impossible to say how long the directory will be maintained, said Gen. Rivera. "After its work has been accomplished it will be dissolved and we will go back to the cabinet."

"It is a time of great responsibility for my colleagues, but we believe we have awakened the national soul of Spain and that will save the country."

Gen. Rivera plans to spend some time in Madrid but will maintain his military post in Catalonia.

A dispatch from Barcelona said he was given a rousing ovation upon his departure. The mayor bade him farewell while the crowds cheered.

Gen. Estella announced he would divide Spain into new administrative political divisions and probably new military districts as well.

While at Barcelona Gen. Estella gave a statement to the press stating that parliament will be dissolved at once.

City Is Quiet

Cavalry is patrolling the streets of Madrid, but the city is quiet.

The directory for the time being, will control all the affairs of the nation. Until the new ministry begins to function the permanent employees of the various offices will conduct the routine.

The masses are apparently indifferent except for Socialists and Syndicalists. The press generally approves the change provided the new government is able to improve conditions.

Workers at Bilbao have proclaimed a strike but the city is quiet. Elsewhere the Socialists are issuing manifestos protesting against the cancellation of civil authority.

The provincial military governments have taken arms away from the police.

Fears are expressed the syndicalists may attempt to foment counter-revolution. Labor is in an excited frame of mind.

Ex-Foreign Minister Alba, of the Albuquer government is said to have fled to Biarritz.

A dispatch from Valencia said that dissensions had broken out among the officers of the garrison. It was reported at Barcelona that General Rivera may grant Catalonia home rule under certain conditions.

## Results Of Fight Are Announced By News In 15 Seconds

Within 15 seconds after Jack Dempsey had knocked out Luis Firpo Friday night with the crash of the News and received and megaphoned the result to the large crowd on Main street in front of the News office.

This is one of the greatest feats in local newspaper history and was accomplished with faultless radio service from the ringside at the Polo grounds. A man was stationed at the radio outfit and as each blow throughout the three minutes and 57 seconds of fighting was announced the operator transmitted it to a man at the front window who in turn megaphoned it to the crowd.

C. Scott Chisholm has charge of the radio service, his set being used.

## FLICK SAYS \$500 AS FIRST LIQUOR CHARGE IS HEARD

Albert Ciccozzi Is Found  
Guilty Of His First  
Booze Offense.

Albert Ciccozzi, arrested Thursday night by state and local prohibition agents, charged with possession of intoxicating liquor, was found guilty by Acting Mayor B. L. Flick Friday night after a three hour trial and was fined \$500. He gave bond pending payment within three days.

Aided by an interpreter for the Italian, who runs the restaurant at 114 Broadway, where officers surprised Ciccozzi in the act of emptying a bottle of liquor in the sink, the accused man swore that he was not guilty but evidence revealed that he had a quantity of whisky in his place and the bottle that he tried to get rid of contained enough to convict him.

J. L. Hilton, of Canton, attorney for the Anti-Saloon league, aided City Solicitor L. B. Harris in the prosecution of the first case. Because this trial took so much time, none of the other seven men arrested were given a hearing. These trials were set by Mayor Flick to come each evening next week until finished. Ciccozzi was practically the only one who was arraigned on first offense, the others being old offenders.

## SHELL, EXPLODING, PIERCES BOY'S LEG

Howard Heston, seven, sustained a painful injury about 11 a. m. Saturday when a shotgun shell exploded and the metal pierced his right leg below the knee.

A physician was called and the boy was removed to the Salem City hospital where an X-ray disclosed the fact that the shell had imbedded itself more than two inches in the boy's leg. The shot was removed and the lad was much improved this afternoon.

Heston and several other boys had taken the shell apart and were examining it. Young Heston threw his shell into the bonfire in the back yard of the Washington st. residence of his father, Frank Heston, and the powder that Heston thought he had ignited exploded, the small shot in shell all taking effect in the lad's leg. All the other boys escaped uninjured.

## OFFICER BLINDED IN WAR TO SPEAK HERE

Lieut. Frank Schoble Will  
Speak At M. E. Church  
Monday Night.

Lieut. Frank Schoble, Jr., has accepted the invitation of the American Legion to speak to the people of Salem at 8 p. m. Monday.

Although the invitation is general to the people of Salem the legion has issued particular invitations to various service and civic organizations of the city, to attend either in a body or severally at their pleasure.

The first M. E. church has opened its auditorium for the address. Several military numbers will be rendered to round out the evening's entertainment, but all plans are being made with the intention of the noted speaker having the focus of attention. There will be no admission charged or collection taken. Schoble wishes to avoid any showing or appearance that he needs the sympathy or any assistance from the American people in a material way.

Although Lieut. Schoble was before the war and is now a resident of Philadelphia, he saw service in the Blue Ridge division of Virginia. He received training in the first officers training corps and went overseas with the 30th division. Shortly before the signing of the armistice, he was wounded while leading his men in the Argonne drive. He was brought to

mobile hospital No. 5 and it was there he was operated upon by Dr. Yaggl of this city for the removal of a piece of high explosive from his head which had destroyed the sight of both eyes.

Before the war Lieut. Schoble had completed two years of college work. When he returned to civilian life, although compelled to study under the great handicap of loss of sight, he had the determination to complete his college work. With the assistance of readers he has ranked with the best students of his class. This year he will return to the University of Pennsylvania to finish his course. Last year he was a member of the university debating team and from his distinction in its activity was elected to the National Debating Fraternity.

Last Memorial day he spoke at the tomb of the unknown soldier at Arlington park, Washington, D. C. He has toured the United States under the auspices of the American Library association for the benefit of the blind. He has been received everywhere with great ovations. Next week he is engaged to speak to the convention of the old Star War Mothers.

Salem should consider the privilege of hearing Lieut. Frank Schoble, Jr., one of the two American officers blinded in the World war, a very great honor.

## Salem Man's Brother Tells About Trip Up Mt. Fujii

Roy C. West, 31 Ohio ave., has received a letter from his brother, Rev. Ralph E. West, who has been in Japan as a missionary at the Boys school in Tokyo and who on Aug. 9, scaled the most famous mountain of the poppy land, Mt. Fujiana or Fujii as it is called. The letter was written several weeks before the great disaster in Tokyo and was delayed somewhat in the long passage to this country.

The letter was written in a little village near Tokyo called Kinokuni which is near the base of Mt. Fujii. As the Japanese themselves say, Lev. West, was much given to sightseeing and was not a difficult task to obtain a permit to climb Mt. Fujii. One of the most interesting of the world's mountains and one of Japan's most favored and sacred spots.

"We started our ascent of Fujii at 6 p. m. Tuesday. There were six in the party, three women and three men. The sky had cleared and we were ready to start."

"There are three main trails but we took the road through the little town of Subashire. At this town we procured horses for the women but we men decided to make the trip on foot. It was our plan to climb all night and near the top at sunrise in order to see the scenes that we had for years heard so much about."

"We had three guides or natives guides who carried the baggage. These guides wanted to stop at every rest house on the way up and tried continually to persuade us to wait until daylight."

"At 1 a. m. we reached the seventh station, two hours from the top. We stopped for our midnight lunch and meeting."

## Home In East Palestine Destroyed By Fire Early Saturday Morning; One Child Saved, Others Brought To Salem Hospital.

Awakened in the midst of dense flames with the total responsibility of saving the lives of her four children, Mrs. Thomas Butler of East Palestine was horribly burned about the face and back and her 14-year-old son and his two brothers, aged 12 and 10, were seriously burned in a fire that completely destroyed their home in that city at 4 a. m. Saturday.

Mrs. Butler, alone in the house with her four children, was sleeping on the first floor and had left a gas stove burning because of the drop in temperature Friday night.

At 4 o'clock they were awakened by the leaping flames, which completely consumed the structure, the clothing of the entire family and all the furnishings.

Wild with fright, the mother broke a window and through this opening assisted her four children to safety while she was terribly burned. She dropped a younger child out of the window and it escaped injury.

Fire fighters worked frantically to save the house but the building located in the extreme western section of East Palestine, was too far away

from the last water plug for the hose to reach the blaze.

In their attempts to escape from the inferno of flames the mother and her eldest son were so severely burned that attendants are fearful for their recovery.

The physician who dressed their wounds brought the woman and her three sons to the Salem City hospital Saturday afternoon where they will be confined. Only perfect care will prevent the death of the mother and 14-year-old son, it is reported, while the other two sons were not so seriously burned.

The whole town was deeply stirred by the catastrophe and the town board of relief immediately went to the aid of the stricken family who were compelled to flee in their night clothes.

Thomas Butler, who is employed in Canton, was not at home during the night and when notified of the fire he rushed to East Palestine to join his family.

The loss of the home is estimated at \$3,000 and it was not learned whether or not Butler carried insurance.

## MASONS PROTEST TAX ON BUILDING

Tell County Auditor The  
Temple Was Not Built  
For Profit.

A committee of Masons from East Liverpool and Salem had a conference with County Auditor Hamilton at Lisbon Saturday. The committee was composed of John G. Augustine, H. L. McCarthy and D. E. Mather, Salem, and John J. Purinton and G. M. Croxell of East Liverpool. The subject of the conference was the new tax law placing lodge temples on the tax duplicate.

The committee argued that the Masonic temples at Salem and East Liverpool were not built with the idea of securing a profit. They are organized as a charitable institution and the lodge had no idea of making any money or benefits for the membership. Atty. McCarthy stated that the grand lodge of Ohio had no equity in either one of the buildings but that they governed the subordinate lodges of the state. As yet no one knows whether the grand lodge will make a test case of the matter or not and the Salem and East Liverpool lodges will wait advice from headquarters.

Hamilton explained to the committee the law as framed by the legislature.

The same law placed the Salem City hospital on the tax duplicate for the first time.

## UNCLE SAM GETS FIGHT "RAKE-OFF"

Washington, Sept. 15.—Uncle Sam's share of the gate receipts of the Dempsey-Firpo fight will be approximately \$160,000 in admission taxes, the internal revenue bureau announced today. The rate of federal tax applied was one cent of each ten cents taken in regardless of whether the admission was \$3 or \$25.

An even larger sum probably will be collected in income taxes. This cannot be computed, however, until the New York collector has reported on possible deductions which may be allowable to both the fighters and promoters.

## Fisher's Mistakes

PROF. IRVING FISHER of Yale uni-  
 versity, a speaker for the League  
 of Nations association, evidently has  
 discovered that he made a grave mis-  
 take when he said in a speech deliv-  
 ered at East Liverpool that the late  
 President Harding had told Fisher he  
 favored the League of Nations but for  
 political reasons refrained from mak-  
 ing public his personal views. No one  
 in this country believes that Harding  
 ever told Fisher that and no one be-  
 lieves Fisher now when he says that  
 he was misquoted. Fisher made one  
 mistake in waiting until after Hard-  
 ing's death to quote him, but he has  
 made a graver mistake in trying to  
 deny the statement that he not only  
 made, but wrote out and mailed to  
 newspapers throughout the country.

Fisher was not misquoted. He could  
 not be, for he sent advance copies of  
 his speech in typewritten form, signed  
 by himself. The advantage he took  
 of a dead man is no more cowardly  
 than his statement in Akron Thurs-  
 day night when, in trying to make  
 amends for his mistake, he declared  
 that he had been misquoted and that  
 his original statement was to the ef-  
 fect that Harding was in favor of a  
 world association of nations. Fisher  
 quoted Harding as saying that he was  
 in favor of the League of Nations, and  
 the professor knows, as well as the  
 newspapers throughout the country  
 know, that he was not misquoted.

Hiding behind such a flimsy excuse  
 in presenting his League of Nations  
 propaganda is disgusting to an intelli-  
 gent people, regardless of whether  
 they favor or oppose such a league.  
 It is not the first time that Prof.  
 Fisher has committed such an offense,  
 for any one may see who has the  
 courage to punish himself by reading  
 the astounding book, "Peace or War?"  
 written by Fisher and recently afflic-  
 ted upon a long suffering country.

Who has a right to talk, if he can  
 get anybody to listen to him, but he  
 becomes a laughing stock when he  
 makes a statement and then promptly  
 denies it when he discovers it has  
 been received with indignation.  
 How truthful Fisher is in mak-  
 ing the denial may be seen in the  
 words of Charles Millington, pub-  
 licity representative for the League of  
 Nations association, who said that  
 Prof. Fisher had personally prepared  
 the account of his speech at East  
 Liverpool. "Prof. Fisher sent part of  
 the speech in typewritten form and  
 part in his own handwriting," accord-  
 ing to Mr. Millington.

That  
Body  
of  
Yours

Registered in Accordance With The  
 Copyright Act  
 ARE YOU MAKING A LIVING OR A  
 LIFE?

When I heard a speaker ask the  
 question "Are you making a living or  
 are you making a life," it certainly  
 made me think of myself and of  
 others.

Now I have no desire to enter into  
 the field of psychology, but psychol-  
 ogy will be the first to admit that  
 the condition of that body of yours is  
 the answer to both questions.

We've all got to earn a living, and  
 like the fleas on Mark Twain's dog,  
 the earning of that living is one of  
 Nature's ways of making us move  
 about and take exercise, thus creating  
 an appetite and also infusing bathing  
 and sleeping a necessary factor in our  
 lives.

By the "sweat of the brow" we were  
 to earn our bread. So Nature be-  
 lieves that if we do not sweat by  
 working we must do it by playing or  
 exercising.

That body of yours demands it.  
 But after all the making of a life is  
 a higher thing than making a living  
 because we have not got to make the  
 life, that is a higher life.

And what do I mean by a higher  
 life?

Simply what you get by doing some-  
 thing else besides working. It may be  
 playing, reading, the intensive study  
 of something, warfare work (for  
 others, anything that just lifts you  
 out and away from the everyday  
 toil and work.

Now what's all this got to do with  
 that body of yours? Everything.

If you keep it in good shape by see-  
 ing that it gets the right quantity and  
 quality of food, that it is worked or  
 exercised and bathed that nothing in-  
 terferes with the throwing off of the  
 wastes of the body by the skin, kid-  
 neys, intestine, and breath, then it  
 will do its proper work for you.

You see if the body is not in good  
 condition, by the time you have done  
 the ordinary toil or work of the day,  
 there is no strength or energy left for  
 anything else.

You cannot enjoy a play, a game or  
 recreation of any kind. You have no  
 desire for study, and the need of  
 others does not enter your head. You  
 are simply making a living and that  
 is all you are doing.

My thought is that everybody should  
 have a "plus" life. It should not be  
 a "minus" nor should it be just a  
 "zero."

There's only one way to get the  
 "plus" life and that is by going after  
 it. Remember your body gives you  
 everything because your body includes  
 your brain, and thought and aspira-  
 tions.

So get it functioning. Work it, play  
 or exercise with it, make it obey your  
 bidding.  
 It is a wonderful mechanism and pays  
 or repays as you use or abuse it.

True Blue Oakland  
With New Features  
Here On Long Trip

Seldom have the new models of any  
 motor car particularly in the medium  
 priced field, embodied as many new  
 and exclusive features as the new  
 1924 Oakland True Blue models.

Two years have been devoted to the  
 design, manufacture and testing of  
 this new model.

Though the distinctive features of  
 its predecessor have been retained,  
 the car has been newly designed from  
 axle to axle, resulting in a unified  
 mechanism in which all parts are per-  
 fectly balanced and correlated.

With all of the new features, im-  
 provements and refinements, Oakland  
 prices on the complete line are lower  
 than on the preceding model.

The following 19 outstanding fea-

## Things to Know About Our Service

Wire It Right  
In the Beginning

Homebuilders! Property Owners! Landlords  
 and Architects! Read this message from the  
 American Builder Magazine—

"Wiring a house in the most complete  
 manner possible is not expensive. It sel-  
 dom exceeds five per cent of the cost of  
 building. It is the greatest labor saver  
 that a home can have and the cheapest  
 of all permanent comfort-equipment of a  
 home. It costs less than plumbing and  
 heating, and when it becomes as thor-  
 oughly understood as plumbing and heat-  
 ing it will be as carefully planned."

You're not going to be satisfied having that new  
 house wired for one center fixture in each  
 room. That's only the beginning. What about  
 decorative little side wall brackets—you may  
 want them sometime. Where will you attach  
 your lamps? And the toaster? And the vacu-  
 um cleaner? And the iron and the washer?  
 And the curling iron?

SEE THAT YOUR WIRING CONTRACTOR  
 PROVIDES "CONVENIENT OUTLETS" IN  
 EVERY ROOM, ON PORCHES, AND IN THE  
 GARAGE. Have this done when the house  
 is wired and save money! Our Lighting  
 Engineer will gladly confer with you or your  
 architect.

## CHRISTIAN CHURCH TO USE BUILDING 125 YEARS OLD

To meet the needs of an increased attendance at the First Christian church school, the church a few months ago purchased sufficient ground surrounding the original church property for enlargement of the church. In the meantime the buildings on the newly purchased ground is to be utilized for church purposes.

One of the structures, a brick house at 13 East Green st. is one of the oldest buildings in the city, having stood on that site for about 125 years. This building was used in the early years as a school for the Quakers and it occupied a part of a section of ground then owned by the Quakers, the tract extending north and south.

After its abandonment as a school, this building was converted into a dwelling house and remained so until a few weeks ago when workmen engaged by the Christian church tore out its partitions, so that, once again, it resembles its early design, that of a school house.

A huge window has been cut in the large assembly room on the first floor to the north, providing excellent lighting facilities for class assembly work. This floor will be devoted entirely to primary class work.

Adjoining this assembly room is a room which Rev. H. L. Miller will use as a private office. Mr. Miller, at his own expense, is fitting this office room and seeing that it is remodelled appropriately to its purpose.

On the second floor there is an assembly room like the one on the first floor, which when completed will be used as a class room for the Men's

Bible class or the combined classes of the graduate department.

A great deal of work is involved in the remodeling of the building, and all services donated by the men and women of the church are greatly appreciated.

Wash rooms on both floors electric lighting equipment and improved heating apparatus have been provided.

The grounds surrounding this house those of the property at the intersection of Green st. and Ellsworth ave. and the original church grounds unite and when plans now favored are carried out this will provide the city with one of the most attractive lawns in the city.

Bushes and shrubbery now growing on the grounds will be permitted to stand as far as possible, only those interfering with walks to be held, being removed. One artistic walk which will connect the additional grounds and buildings with the church building will be constructed of brick and of an old fashioned or English design. A rose trellis and other floral growths will add beauty to the scene and the lawn to the front of the church will be sufficiently terraced to form a smooth line with the proposed walks.

The corner property which was purchased by the Loyal Women of this church will be improved but it is not likely that any great changes will be made until next spring.

Concrete approaches and steps to the assembly building with bracket lights and ornamental boxwood trees or evergreen will add an attractive touch to the structure now under repair.

## Be Cautious About Your Eyes

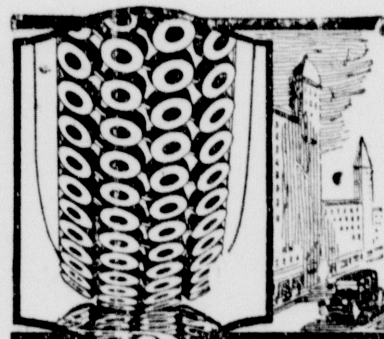

Be cautious about forcing your eyes to overwork. Some eyes can stand abuse while others can not without harmful results.

Be cautious about your eyes' distress signals. Have them properly examined at the first indication of eye-strain and learn the truth about them.

## Why Worry.

"Serenity of mind is the most valuable asset of the present age," declared Senator Lodge of Massachusetts recently. "It is the only way to keep young, the only way to preserve health and, while we laugh at the maid Sarah, we really should envy her."

"Sarah had just resigned her position to get married and when her mistress learned that she was shortly to go to Canada and make her home there, she asked:

"But Sarah, aren't you rather nervous about going into a strange country like that?"

"No, madam," answered the girl. "That's my husband's lookout. I belong to him, and if anything happens to me I'll be his loss, not mine."

## CHANGE COLLEGE NAME TO CARROLL

Cleveland university is to have a new name. Feeling that the present name was too restricted in scope, Rev. Thomas J. Smith, S. J. president of the new school announced today that it will be hereafter known as the John Carroll university.

John Carroll was a cousin of the famous Charles Carroll of Calverton, one of the signers of the Declaration of Independence. He was also the first Catholic bishop of the United States and was a member of the Jesuit order.

The intimate friend of Benjamin Franklin and George Washington, John Carroll is said to have been more instrumental in securing the assistance of France in the American struggle for independence than any other man in the colonies. At the outbreak of the revolutionary war, John Carroll was sent in company with Franklin and Charles Carroll of Carrollton, to visit the Canadians and attempt to persuade them to cast their lot with their sister colonies to the south.

# DEMPSEY KNOCKS OUT FIRPO WITH RIGHT UPPERCUT

Firpo Floored 5 Times In  
First Round But Knocks  
Jack Off His Feet.

New York, Sept. 15.—Jack Dempsey last night retained his world's heavy-weight title, knocking out Luis Angel Firpo, the "wild bull of the Pampas," in the second round of one of the fiercest, fastest and most spectacular battles in the history of pugilism.

The champion floored his Argentine challenger five times in the first round and twice in the second round before a short right uppercut to the jaw sent Firpo down for the last time. But in the three minutes and 57 seconds of whitewind, terrific mauling, Dempsey himself once was knocked clear through the ropes on top of the press benches and, groggy under a bombardment of mighty rights, once sank to his knees.

Before Firpo went hurtling down to defeat, carrying with him the shattered hopes of a continent, he gave a vast, frenzied throng of 85,000 one of the most thrilling and courageous exhibitions of all time. Battered, bloody and groggy, he showed his marvelous stamina by coming back with a whirlwind, crushing drive toward the close of the first round that had the title holder tottering, closer to losing his crown than at any time in his career.

**Best Fight Of Career**  
Firpo fought the best fight of his career. The challenger's mighty right was never mightier. Against the relentless power and versatility of the champion's furious attack he went down, but in defeat he gained more glory than in any battle of his career. He was beaten, but his menace to the heavyweight throne was not removed.

From the top of the first going, these two scowling giants tore at each other with attacks of unrelenting savagery. Firpo was the first to land as they came to close quarters, but in a flash the champion plunked, shot in a right to the body and a left to the jaw, sending the challenger crashing to the floor on his side.

Momentarily dazed, but with eyes ablaze, Firpo rose to his feet after a short count and rushed back. Again he was met by a withering drive and went down for the second and third times. Blood flowed from his mouth, he was stunned and Dempsey let loose the most terrific power of his wings as he sensed victory. Firpo went down twice more and both times it seemed the end had come. But after taking a count of nine on his fifth knockdown, the challenger suddenly sprang at his adversary like a wounded tiger, an infuriated jungle beast.

Swinging with flail-like rapidity and sledgehammer power, the famous right thrust that had brushed aside all opposition before and swept him to fame, the Argentine rushed at his adversary. Caught unaware by this stunning comeback on the part of the man he had believed beaten into submission, Dempsey reeled under the assault. A right to the knees and as he rose another swing knocked him from his feet and through the ropes on top of the newspapermen, huddled at the edge of the ring.

**Terrific Round Ends**  
Dempsey's knees wavered as he clutched back in. He clinched to save himself. Firpo could not follow up his advantage and the bell ended a round that will go down as one of the most sensational of all fighting history and which came to an end with both pugilists on their feet.

Unleashed for the second round, they leaped at each other once more. Dempsey was the quicker on the attack and Firpo went down under the crushing blows of the champion. He arose only to go down once more. Now there was no doubt of the outcome. The challenger, bleeding and tottering, forced himself to his feet, carrying on largely by instinct. Dempsey stepped in, whipped his left to the body and then a short right

to the chin that sent Firpo sprawling on his back, staring vacantly at the glare of lights overhead.

The Argentine tried feebly to turn over to gather strength to rise. His fighting heart called him back to the fray but the body that had withstood one of the most terrific assaults the ring has ever known could not respond. He lay flat at the count of 10, after 57 seconds of the round had elapsed, and was helped to his corner by the victorious.

**Gets Small Fortune**  
Dempsey gained a fortune with his victory last night for he will receive close to a half million dollars as his share of the gate receipts, estimated at \$1,250,000 by Promoter Tex Rickard, a figure second only to the record "gate" of \$1,600,000 established two years ago by the Dempsey-Carpentier battle at Jersey City.

The champion's share, 37½ per cent of the gross receipts, approximated \$480,000, while Firpo, whose share was 12½ per cent, will receive about \$160,000, twice as much as he got from any previous bout.

## THREE HIGH TEAMS PUT THROUGH LONG SECRET PRACTICE

More Than 40 Men Practice  
In Three Squads At  
Reilly Field.

Behind closed gates Coach Richtman put three squads of players through a two hour workout and signal practice at Reilly field Friday. From now on all practices will be behind locked gates.

Over 40 men are out nightly, something that has never been done in the past. The squad greatly exceeds last year's large number. A number of other men will report next week and it is probable that over 50 will be out at the daily sessions. Great interest is being manifested in the team at the High school and also among alumni and business men.

From all indications at this early date for predictions, the team will be as seasoned and as fast as any in the county. Principal C. M. Richtman says the men are getting more training in the fundamentals of the game than ever before. That means that what was thought would be a team of comparatively green men will be well developed, at least the men are getting plenty of work.

The secret is an open one when this is considered. The Red and Black school is very fortunate in having a splendid staff such as Head Coach Richtman, and his capable assistants, Swanson and Nickel.

men began a workout under Swanson.

On Richman's team, which will likely be almost the same team that will oppose Schring in the opening game next Saturday, were Sirtick, left end; Gaunt, left tackle; Kelly, left guard; Simonds, center; Stahl, right guard; Bush, right tackle; Houser, right end; Bova, quarter; Vollmer, left half; Cosgrove, right half; Cox, half; Yangling, fullback. Capt. Cratchley is still nursing his charley horse but is expected to be in scrimmage Monday.

Nickel's team was composed of many who will be first stringers but practiced on the second team. The squad was composed of Spiker, left end; Judge, left tackle; Corso, left

guard; Lewis, center; Yoder, right guard; Jones, right tackle; Catlin, right end; Bingham, quarter; Coffey, left half; Koolen, right half; Cavanaugh, fullback.

Manager Carl Howell had some of his assistants digging post holes and handling the dummy. The field is to be surveyed and the uprights erected before Monday. Manager Howell is somewhat handicapped because of the fact that no assistants will be elected by the athletic association until Sept. 25. Basketball Manager Ralph Zimmerman is helping Howell this week.
